

ALCHEMIST DREAMS
FINE HANDMADE AND BESPOKE LIQUEURS

NEW HOUSE BLENDS FOR SPRING/SUMMER

**Light, complex and fruity blends for when
designing your own is too much choice**

Alchemist Dreams make all their fruit, herbs and spice liqueurs by hand from organic spirit so that you can have whatever flavour combination you desire. But sometimes designing your own is a little mind boggling. So we have a range of tried and tested delicious house blends to inspire you. You can still add your own message on the label and pretend you designed it yourself. We promise not to tell.

We tried to launch them weeks ago, but we've had to wait for a sunny day. It was a long wait but now spring is here at last! We hope it's here to stay. So here is our new spring/summer range of delightfully light and fruity creations to sip in the sunshine.

Summer Storm is a tempestuous blend of lime, ginger and elderflower. **Broken Temperance** is an immoral blend of raspberry, cacao and sarsaparilla. **Twisted Mocha** is a wide awake blend of orange, cacao, coffee and cinnamon. **High Tea** is a refined blend of oolong, strawberry and bergamot and we've kept our favourite of last year's house blends: **Blackberry Magic**, a mysterious blend of blackberry, ginger and Szechuan pepper.

About Alchemist Dreams

Alchemist Dreams is a one-woman laboratory of fabulous flavours. As well as letting anyone design their own blend online she makes unique handmade liqueurs to match client's demands, the stranger the better. A Taste of the Forest for the Canadian Tourism Commission, infused with pine needles and blended with chilling and warming spices to invoke a forest in mid-winter. Musty Books for the British Library, pinning down the comforting smell of a second hand bookshop into a bottle.

Alchemist Dreams is also running an evening of cake and cocktail pairings on a canal boat on the 9th and 10th May. A few tickets remain. See www.alchemisdreams.co.uk/events for details.

About Ruth Ball

Ruth Ball is the founder and sole full-time employee of Alchemist Dreams. A chemistry graduate with a life long passion for food and flavour. Ruth founded the company when she realised Heston Blumenthal didn't have a graduate programme for scientists.
